BitCore (BTX) tutorial : Trezor Legacy Account & Electrum 2.8.2 & 2.9.3 claim

This process is only available for Trezor Legacy Account. Wallet Start with "1" not with "3"

How do you want to connect to a server? Electrum communicates with remote servers to get information about your transactions and addresses. The servers all fulfil the same purpose only differing in hardware. In most cases you manually hand to be telectrum pick one at random. However if you prefer feel free to select a server manually.	Electrum wallet Wallet Wallet This file does not exist. Press Next to create this wallet, or chose another file.	Choose	Create 'default_wallet' What kind of wallet do you want to create? Standard wallet Wallet with two-factor authentication Multi-signature wallet Watch Bitcoin addresses
Keystore Do you want to create a new seed, or to restore a wallet using an existing seed? Oreate a new seed I already have a seed Use public or private keys I use a hardware device	Hardware Keystore -Select a device: Learning Device [trezor, initialized] Learning Device [trezor, initialized]	Back Next	Image: Enter PIN Image: Enter PIN Image: Enter PIN Image: Image: Image: Enter PIN Image: Image

Install Electrum 2.8.3 or 2.9.3 and choose your Trezor as New Wallet
