

# Activate Coin Control in Bitcore-QT

- This is what the start screen looks like

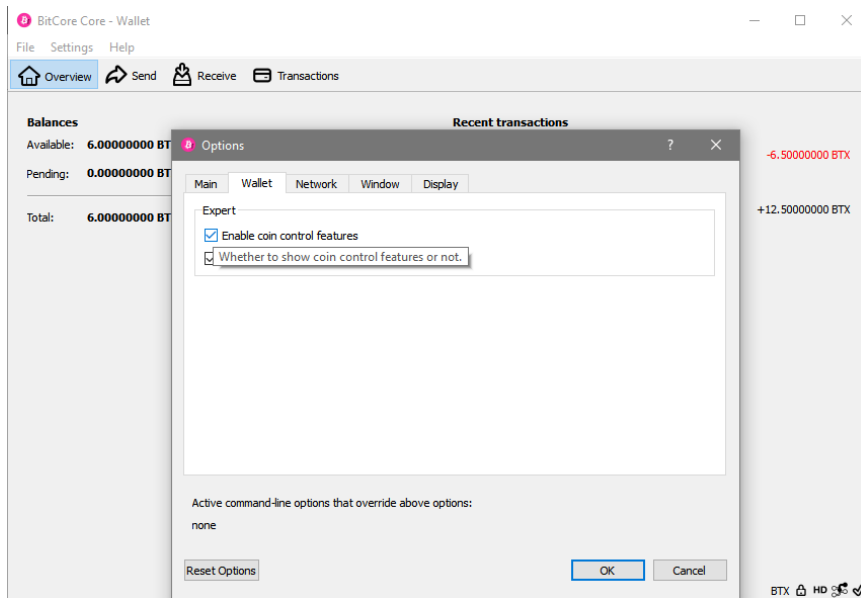

# Activate Coin Control in Bitcore-QT

- Click on the **Settings** menu and then select **Options...**

# Activate Coin Control in Bitcore-QT

- Click on the **Wallet** tab
- Check the box named **Enable coin control features**
- Finally click **OK** to close the dialogue.

# Activate Coin Control in Bitcore-QT

- Now when in the **Send** tab of the wallet you have an additional option called **Inputs...**
- This will allow you to have full control of your coins, letting you select every exact input for your next transaction
- Click on **Inputs...**

# Activate Coin Control in Bitcore-QT

- **Coin Selection** lets you choose the addresses you want to spend your coins from for your transactions.
- Use this to ensure you never spend from an address you have registered for the airdrop.
- Also use **Coin Selection** to see which addresses are actually in use for your wallet right now.

# Activate Coin Control in Bitcore-QT

Enjoy full control of your coins!
